

SUMMER SOLSTICE SPECIAL

Hi Everyone!

Here I am again - Lancashire's Top Tamper!

Just in case you're wondering why this little update is entitled the 'Solstice Special' it's because it lands at the height of summer. By the way, I'm wondering if anyone celebrated Solstice in the age-old way? I didn't. You know, for some reason I struggle to get enthused about the sun coming up on a field full of boulders and choosing to have a wispy beard and wear loose cheesecloth clothing and matching sandals. Weird really, maybe I should embrace it instead of selling coffee machines. No thanks!! Anyway, read on and get yourself enthused about what's below...

GENERAL UPDATE

Sales at the moment are as up and down as a fiddler's elbow but we are bang on track to achieve our growth forecasts and sales budget, which can't be bad in these uncertain days. It would appear that more and more businesses are looking for value and flexibility, which of course is what you get in barrow loads from us.

Our orders are in for plenty of stock from our Italian suppliers who, as we know, take themselves off for the month of August and don't wake up from their slumber until well into September. We are used to it and are well prepared for it - don't you worry!

THE 'UPTOWN'

Here she is, our 'Uptown Girl' and a beauty indeed! Already getting rave reviews from the specialist coffee market - unique design and advanced technology are what she is all about. Even better of course is the BIG VALUE price compared with the La Marz. (what's its name?) and that Victoria Arduino woman - and what does half the price sound like?? Check the link out and if you like what you see then get in touch and we will bring one along for you to play with.

*Super
Chocolino*
LUXURY ITALIAN CHOCOLATE

Our newest brand of pure luxury Italian drinking chocolate which can be made on your espresso machine, or by our unique cooking method using our patented DZ12 machine. Everyone that tries it falls in love (they like the price as well!!), so why don't you be next and have a no-commitment demo and trial. If you want to know more then click on the link to watch it being made.

V-COOL MILK COOLERS

Due to being made in the same factory as most of the well-known bean to cup companies, more and more customers are seeing the light and coming over to V-Cool. We can't say that our coolers are better, because they are the same, but what we can say is why pay double (in some cases) when you can have a cooler available from 4-litres capacity all the way up to 15-litres!!! And with a dual milk option and still compatible with most makes of machine

Still the industry favourite for all your beverage equipment cleaning needs. Container loads are coming in every week to keep the country's coffee machines, boilers and brewers clean. As Carly Simon said "No Body Does It Better", so why don't you have your own branding on your own bottle to promote your company and make sure your customers don't go wandering off. It's all free by the way and all you have to do is send us your logo to info@urnex.co.uk and we will send you a sample. From that point you have YOUR OWN cleaning products.

CAPSULE MACHINES

We are gathering pace in this highly competitive market, not least because we don't do household products and you are safe from predators when your products are installed. There are NO compatible capsules for these machines, other than official K-Fee ones. PLUS they're sold to trade and hospitality ONLY, so the business is all yours! Check out our hotel bedroom promotion, it's a good add-on for those already supplying hotels.

social media

YES! We're on it. Blazing our trail on all the well-known platforms and we are doing it for YOU. More awareness means more interest means, more leads for our distributors.

STYLE CAFE

Well, everyone. That's the end of our Summer Solstice Special. I'm going on mi' holidays next week but that does not mean you can't get in touch with me or our office. The phone will be switched on for your needs and requirements, even whilst me and my wife are searching around Yellowstone looking for Yogi and Boo Boo!!

Enjoy the summer!
